Company Overview

Marske Site Services, part of the MMC Group (Est. 1963) is a privately owned engineering and contracting Services Company providing a wide range of engineering services to customers in the UK and overseas. The main office is located in Stokesley, North Yorkshire.

Recruitment Division

We provide a comprehensive recruitment service specifically designed to serve a wide range of specialist trades, technical and engineering personnel working in all sectors of industry. Providing Contract, permanent and a Master Vendor services within Engineering, Construction and associated industries within the UK and Internationally. The management system is certified by SGS to ISO 9001:2008 QA Standard. We are members of the REC and the ECIA and Rated Grade 'A' with the UK Borders Agency.

Projects Division

Our highly qualified and experienced team of specialist support personnel is backed up by a 24 hour, 7 days a week project engineering service. MSS has a long track record of undertaking mechanical projects, site installation and maintenance, pipe structural fabrication and the supply of all categories of engineering personnel. The management system is certified by SGS to ISO 9001:2000 QA standards.

Inlec

Inlec UK are one of Europe's leading test equipment specialists. Over the past fifteen years, they have provided test equipment solutions to help their customers lower costs, improve efficiency and increase profit.

A programme of continued reinvestment in advanced test equipment, facilities and systems ensure that you will receive the best equipment for your test and measurement application.

Candidate Sourcing

Our extensive and constantly updated 'state of the art' database of expert candidates enables MSS specialist consultants to mobilise quality pre-screened personnel at short notice.

All MSS personnel are subjected to skill checking, a minimum of two relevant trade references are taken from previous employers, original qualification documentation is verified and additional security clearance is implemented as required.

MSS provide a 'unique capability' of daily speed trawling of all available and job seeking candidates from a network of internet job boards and migrating and processing their applications straight from or into our database.

Our recruitment team are qualified with leading industry bodies such as:

- REC, CIPD, IOSH, NEBOSH

- We operate recruitment standards that are accredited to ISO 9001-2008

construction

Our Core Values

At MSS we share ideas, knowledge and experience across businesses and territories to deliver outstanding results and we invest heavily in equipping our staff with the specialist skills necessary to perform to the highest standards, whilst developing their careers.

We believe that working in partnership with our customers through part or all of the project lifecycle make us a cost effective option and because of this we are already working in close, long-term partnerships with a number of leading construction companies.

MSS strive to achieve the highest standards in quality of service, combined with meeting the specifications and standards of work required by our customers.

Client Recommendations

“We have worked with Anthony and the team at Marske Site Services for some time now and have always found the service they provide to be efficient, professional and value adding. They have provided invaluable support to our in house recruitment team and I am confident they will continue to do so in the future”
Resource Manager at Balfour Beatty Management

“We have used Marske Site Services to supply staff for two major construction projects and they have on the whole provided a wide selection of candidate CVs down to very tight deadlines. We have always found their staff and administrative backup fast, efficient and extremely helpful. I would not hesitate to use MSS when looking to fill the next job vacancy here”.
