PROJECTS 

Our Head Office, engineering and management teams based in Stokesley North Yorkshire deliver projects in a variety of locations on our customer sites, and from both our fabrication and load out facilities at the heart of the River Tees.

Marske Site Services is a part of the MMC Organisation which has been established since June 1964.

We are an ISO9001:2008 accredited company with vast experience in Oil & Gas, Marine and Petrochemical construction. Our experienced and committed management team and workforce, alongside our robust, dependable supply chain enables us to respond quickly and efficiently to customer demands.

OUR SERVICES

HEALTH, SAFETY, ENVIRONMENT & QUALITY

TURNKEY PACKAGES

FABRICATION

PIPEWORK

Health, Safety, Environment & Quality

The prevention of all accidents resulting in personal injury, or damage to plant, equipment, property or the environment is paramount to our operations.

MSS adopts a pro-active approach to ensuring effective HSE&Q Management throughout our business. Specific hazard identification and risk reduction methods support this process both in our in-house workshop environments, and whilst taking responsibility as identified by the Construction Design and Management Regulations during site project works.

Detailed planning, project management, process control and quality assurance systems are designed to minimise the risk of defects and guarantee the timely delivery and quality of our finished products.

Turnkey, multi disciplined packages

Marske Site Services offer a full and comprehensive service: our specialist management team facilitates and coordinates bespoke projects; examples of these operations include Energy from Waste Plants to Complex Offshore Pipe Handling Cranes operating in hostile waters.

Our business is to deliver your solution correctly, safely, on time & within budget.

- Project management
- Design
- Detailing
- Procurement
- Fabrication
- Machining
