

Marske Site Services Instrument & Electrical Resources

UNIVERSA – IE™

The **mss** UNIVERSA IE™ has been developed with clients as a complete support function for the delivery of shutdown and maintenance programmes. The service enables our clients to make one phone call to mobilise a fully supported, experienced and highly qualified team of technicians; along with the required test equipment for short or long term projects.

UNIVERSA – IE™ is Marske Site Services unique Instrument & Electrical support package that we deliver enhanced performance and significant savings in time and cost.

UNIVERSA . a *latin* term for COMPLETE...
